Memorandum to States Having Farmer Fieldwomen

Re: Discussion Outline and "Quota Quiz"  
to be used in connection with wheat  
referendum.

In connection with the wheat referendum, it has been suggested that the State Farmer Fieldwomen prepare a discussion outline and a "quota quiz" to pass on to the county educational assistants. These should be prepared in the State office as suggestions for further adaption by the county women to their local situations.

The following general outline could be used as a basis for the Fieldwomen to use in preparing an outline for the counties:

- I. What are marketing quotas?  
(Definition of the term.)
- II. The need for marketing quotas
  - a. Export markets are gone
  - b. Ever-Normal Granary is full
- III. What will happen if quotas are approved?
  - a. How they work
  - b. Price protection
  - c. How they affect the cooperator
  - d. How they affect the non-cooperator
  - e. No price increase to consumers
- IV. What will happen if quotas are not approved?
  - a. To wheat farmers?
  - b. To other farmers?
  - c. To consumers:

The same outline could be followed in preparation of the quiz. The straight question and answer type would be more desirable than a true and false quiz for this subject matter.
